

Manager Phone:

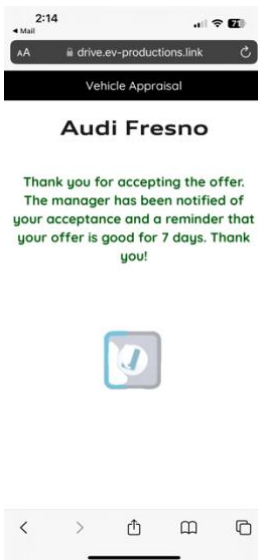

This manager page did not load dynamically. The website tab was open in the background. I re-opened the tab and had to manually reload the page for the vehicle to be displayed. Can this be fixed to automatically/dynamically load when a vehicle is added? If managers have the website tab open in the background of their phone, will they see the vehicle after clicking the text notification link (does the text link reload the page if the tab/page is already open)? We don't want Managers to have to reload this page manually, since the page/tab will remain open all day at work.

Customer Phone:

After accepting an offer, I'd prefer if the customer stays on the website screen;
In the current version, the customer can't see the offer amount (unless they open the email link or text link).

Offer Accepted (Manager Will Call You)

The above offer expires in 7 days. All offers are subject to final inspection at the dealership.

Your Car:
2020 Honda Pilot
Color: White
License Plate: B2BSAAS
State: IL
VIN: 300060066B2BSAAS

If you accept our offer, the used car manager who reviewed your car will call you to coordinate all details including payment for your car.

If you enjoyed this experience, please recommend us to a family member or friend. We'd greatly appreciate any referrals!

Thank you!

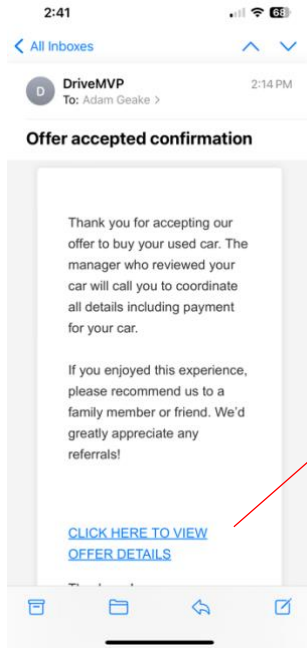

Audi Fresno

Offer Accepted Screens:

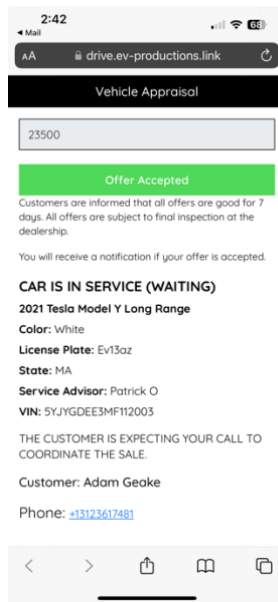

The Customer and Manager Accepted screens are flipped.

The Customer screen is showing what the Manager should see, and the Manager screen is showing what the Customer should see;

Customer email and link is showing this;

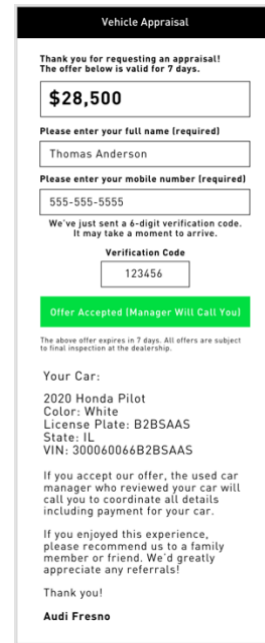

Wrong (manager view)

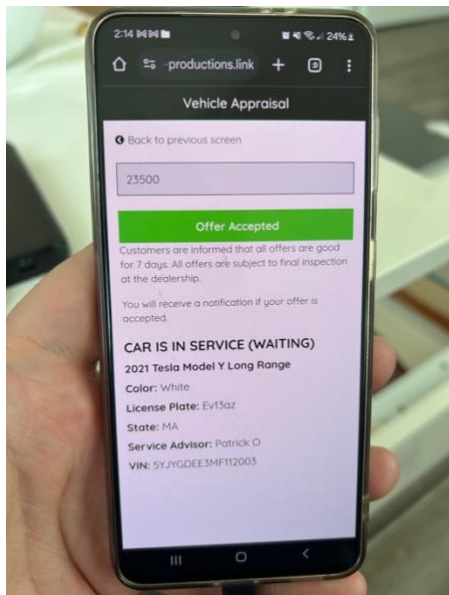

Customer should be shown this;

Correct (customer view)

Manager screen is showing this;

Wrong

Manager should be shown this;
("The customer is expecting your call to coordinate the sale",
Customer Name, Customer Phone);

Correct
